

19-21 March.

Department of Botany and Microbiology
The University College of Wales, Aberystwyth
The Twelfth Joint Meeting with the
Department of Microbiology, University College, Cardiff

March 16-18
1983

Wednesday 16 March

8.00 pm Mr James R Brockman, the resident Arts Fellow (who is a bookbinder), will give an illustrated talk

Thursday 17 March

9.30 am Dr Lynne Boddy (Cardiff) "Animal-microbe interactions in the wood decomposition process"

10.15 am Miss Sarah Bowring (Aberystwyth) "Aspects of survival of vegetative cells of Clostridium"

10.45 am Coffee

11.10 am Dr Philip Coombs and Mr Paul Watts (Cardiff) "Bacillus cereus colonies"

11.40 am Dr Douglas Kell (Aberystwyth) "Energy coupling in Electron-transport phosphorylation"

12.30 pm Mr Rupert Wood (Courtaulds) "Micro-organisms in the industrial environment"

1.00 pm Lunch

2.15 pm "FOOTBALL MATCH" - and any other biological activities of interest.

4.00 pm Tea

4.30 pm Dr Dorothy Jones (Department of Microbiology, University of Leicester) "Phages, Plasmids, Transposons and Bacterial Taxonomy"

8.00 pm Films: (a) Traffic (1970) J. Tati (French)
(b) Carmina Burana (1975) Composer Carl Orff
Director Jean-Pierre Ponnelle (West German)

Friday 18 March

9.30 am Miss Ulrike Leroff (Cardiff) "Cellulose degradation in anaerobic digester systems"

10.00 am Mr Miles Yarrington (Aberystwyth) "Anaerobiosis and methanogenesis in an Antarctic moss peat"

10.30 am Mr Adrian Peters (Cardiff) "The use of two dimensional diffusion gradients in microbial ecology"

10.45 am Coffee

11.10 am Mr Mike Rayner (Cardiff) "Photobacteria - the measurement of oxygen tension and some practical problems"

11.25 am Mr John Oultram (Aberystwyth) "Some elements of a system for genetic exchange in Clostridia"

12.00 am "Micro-mind" The quiz - yet again!
