

25th Anniversary Microbiologists Meeting
Gregynog, 20-22 March 1996

Wednesday 20 March

Evening

Lecture Professor Gareth Morris:
A Retrospective

Thursday 21 March

Morning

09.00 Professor R.K. Poole (King's College, London)
Bloody bacteria!

09.30 Dr Roy Goodacre (Aber)
Rapid identification of bacteria

10.00 Ian Williams (PG/Cardiff)
*The effect of adherence to silicon catheter surfaces on
Staphylococcus aureus*

10.30 Coffee

11.00 Dr Duncan Purdie (Southampton)
Blooming Coccolithophores

11.30 Jeremy Fry (Cardiff/4th Year)
*The application of nucleic acid hybridisation analysis to
investigate bacterial communities in deep marine sediments*

11.45 Suzie Walsh (Cardiff/4th Year)
*The structure and physiology of colonies of Bacillus
licheniformis*

12.00 Dr Gareth Griffith (Staff/Aber)
Developmental Biology of Aspergillus nidulans

Lunch

Afternoon

Fungal Foray Al Venables & John Hedger

Gregynog Lecture Professor Richard Lacey (Leeds)
The Mad Cow Coverup Uncovered

Evening

Anniversary Dinner Guest Speaker Professor David Hughes

Friday 22 March

Morning

09.00 Professor David Clarke (Manchester)
A sting in a tale of detecting pathogens

09.30 Professor David Lloyd
Microecology of peat

10.00 Dr Adriana Ravagnani (Post Doc, Aber)
Nitrogen metabolite repression in Aspergillus nidulans

10.30 Coffee

11.00 Dr Bob Lovitt (Swansea)
Getting a flavour from microbiology

11.30 David Nicholson (PG, Aber)
Neural networks and others.....

12.00 Chris Baker (PG/Cardiff)
Enrichment and chloroamidase enzymes

Lunch
