

SCRATCH

STORIES

You can try scratch at home - download it for free!

The screenshot shows the Scratch IDE with a script for a school quiz. The script includes: 'when clicked', 'move 50 steps', 'play sound meow', 'ask Hello! My name is Steve! and I am a pupil at Ysgol Bro Ddyfi! How are you today? and wait', 'say Welcome to our school! Now it's time for a little quiz! for 5 secs', 'broadcast Q1', 'when I receive Q1', 'ask First Question! How many pupils are there in the school? and wait', 'if answer = 378', 'change Score by 1', 'say Thats Right!! for 5 secs', 'else', 'say Bad Luck! Click the green flag to start again! for 5 secs', 'move -50 steps'. The preview window shows a school building with the Scratch cat character on the stage. The score is 2. The 'New sprite' panel shows the Scratch cat and a 'Stage' option.

You can choose different types of command here

Double click on the background to change a picture

Drag commands to this area to put together your program

If you want a new character use "New sprite" here

Why don't you try to build this, and see what happens?

Poster created as part of the GOWS Get On With Science Project, by Hannah Dee of Aberystwyth University and Tomi Rowlands of Ysgol Bro Ddyfi. For more information see http://bit.ly/gows_dyfi
